Subject Index to Volume 232 (July-December 2000)

A

- Abdominal aortic aneurysm
 - endovascular repair, impact on rate of open surgical repair, 501
 - endovascular vs. transabdominal repair (*letter*), 725
 - ruptured aortoiliac aneurysm, endovascular graft technique, 466
- Abdominal wall reconstruction, complex, flap vs. mesh closure, 586
- Acalculous cholecystitis, effect of endotoxin on opossum gallbladder motility, 202
- Adenocarcinoma
 - Barrett's esophagus, limited resection, 733
 - esophagogastric junction, 353
- Adenovirus, isolated limb perfusion technique for local gene delivery (rat), 814
- Adhesion molecules, brain death and donor liver quality (rat), 804
- Adrenalectomy, endoscopic retroperitoneal adrenalectomy, 796
- Age/aging
 - donor, survival after cardiac transplantation, 302
 - long-term survival after liver transplantation, 490
- Anastomotic leak, stapled ileal pouch anal anastomosis without ileal diversion, 530
- Anatomy, surgical anatomy of left lateral segment as applied to living-donor and split-liver transplantation, 658
- Aneurysm
 - abdominal aortic, 501
 - aortoiliac, 466
 - middle cerebral artery, 570
- Animal studies
 - activated protein C and ischemia-reperfusion-induced spinal cord injury in rats, 272
 - acute pancreatitis, serum levels of *reg I* and *reg III* protein (rat), 646
 - brain death and donor liver quality (rat), 804
 - cardiovascular and hepatocellular functions after trauma-hemorrhage, effect of estrogen administration (male rat), 673
 - effect of endotoxin on opossum gallbladder motility, 202
 - group IIA phospholipase A₂ and lung injury in intestinal ischemia-reperfusion (rat), 90
 - gut-derived sepsis, in vivo virulence expression of PA-I lectin/adhesin of *Pseudomonas aeruginosa* (mice), 480
 - isolated limb perfusion technique for local gene delivery (rat), 814
 - role of *Pseudomonas aeruginosa* PA-I lectin in gut-derived sepsis (mice), 133
 - small bowel epithelial turnover in IL-1 receptor knockout mice, 42
- Antibiotic therapy, acute necrotizing pancreatitis, 619
- Antireflux surgery, laparoscopic, short esophagus, 630
- Aortoiliac aneurysm, ruptured, endovascular graft technique, 466
- Apoptosis, small bowel epithelium, in IL-1 receptor knockout mice, 42

- Appendiceal computed tomography (*letter*), 721
- Appendicitis, intravenous/oral ciprofloxacin plus metronidazole for, 254
- Axillary dissection
 - contemporary view (*Editorial*), 8
 - impact of breast cancer surgery without axillary dissection, 1

B

- Bactericidal/permeability-increasing protein, leukocyte function after liver resection, 208
- Bariatric surgery, laparoscopic roux-en-Y gastric bypass for morbid obesity, 515
- Barrett's esophagus, early adenocarcinoma, limited resection for, 733
- Barrier function, role of *Pseudomonas aeruginosa* PA-I lectin in gut-derived sepsis (mice), 133
- β -Blockers, for variceal hemorrhage, 216
- Biliary tract, postoperative bile duct strictures, 430
- Biopsy, stereotactic core-needle breast biopsy by surgeons, 542
- Brain death
 - donor brain death and accelerated allograft rejection in renal transplantation, 254263
 - donor liver quality (rat), 804
- Breast biopsy, stereotactic core-needle breast biopsy by surgeons, 542
- Breast cancer
 - early-stage, quality of care, 220
 - sentinel node biopsy, periareolar blue intradermal dye method, 81
 - surgical management without axillary dissection, 1
- Budd-Chiari syndrome, surgical treatment, 340
- Burns
 - centennial changes in surgical care and research, 287
 - skeletal muscle protein catabolism, 455

C

- Carcinoembryonic antigen, molecular detection in blood during colorectal cancer resection, 58
- Carcinoids, gastrointestinal, 549
- Cardiac transplantation, risk factors for early and late death, 302
- Cardiovascular function, after trauma-hemorrhage, estradiol administration and (male rat), 673
- Carotid endarterectomy
 - outcome, impact of race, 704
 - patch closure vs. eversion, 119
- Catabolism, skeletal muscle protein catabolism in severe burn, 455
- cDNA expression array, gene expression patterns in colon cancer, 576
- Cell proliferation, small bowel epithelium, in IL-1 receptor knockout mice, 42

- Cerebral artery aneurysm, surgical clipping of unruptured middle cerebral artery aneurysm, 570
- Chemoradiotherapy, adjuvant, pancreatic adenocarcinoma (*letter*), 727
- Chemotherapy, adjuvant, recurrent hepatocellular carcinoma, 10
- Ciprofloxacin, intravenous/oral ciprofloxacin plus metronidazole for intraabdominal infection, 254
- Cirrhosis, hepatocellular carcinoma in, radiofrequency ablation for, 381
- Clinical pathway, 48-hour postoperative stay for colectomy, 51
- Colectomy, 48-hour postoperative stay, 51
- Colonoscopy, miniprobe ultrasonography during, 46
- Colorectal cancer
- gene expression patterns in colon cancer, 576
 - hepatic metastases
 - hepatocyte entrapment in, 653
 - laparoscopic ultrasonography (*letter*), 721
 - liver resection, cost-effectiveness analysis, 763
 - tumor cell dissemination during hepatic resection, 66
 - two-stage hepatectomy for, 777
 - preoperative staging, colonoscopic miniprobe ultrasonography, 46
 - resection, molecular detection of CEA and cytokeratin 20 in blood during, 58
 - survival and recurrence, laparoscopic vs. conventional resection, 181
- Computed tomography
- appendiceal (*letter*), 721
 - negative predictive value of cranial CT after minimal head injury, 126
- Cost-effectiveness analysis, hepatic resection for colorectal liver metastases, 763
- Crohn's disease
- side-to-side isoperistaltic stricturoplasty in, 401
 - stapled ileal pouch anal anastomosis without ileal diversion, 530
- Cytokeratin 20
- molecular detection in blood during colorectal cancer resection, 58
 - molecular detection in blood during liver resection for metastatic colorectal cancer, 66
- Cytokines, small bowel epithelial turnover in IL-1 receptor knock-out mice, 42

D

- Debridement, pancreatic necrosis (*Editorial*), 627
- Diabetes mellitus, uremic type I, simultaneous cadaver-donor pancreas and living-donor kidney transplantation, 696
- Duodenum, perforation, endoscopic retrograde cholangiopancreatography-related, 191

E

- Economic issues, hepatic resection for colorectal liver metastases, 763
- Editorial
- contemporary view of axillary dissection, 8
 - pancreatic necrosis: to debride or not to debride, 627
 - preconditioning for protection from ischemic injury: discriminating cause from effect from epiphenomenon, 163
- Education, laparoscopic donor nephrectomy, 392

- Endorectal pull-through procedure, Hirschsprung disease in newborn, 372
- Endoscopic retrograde cholangiopancreatography, duodenal perforation, 191
- Endoscopy
- endoscopic retroperitoneal adrenalectomy, 796
 - sinus tract endoscopy in infected pancreatic necrosis, 175
- Endotoxin, effect on gallbladder motility (opossum), 202
- Endovascular graft, for ruptured aortoiliac aneurysm management, 466
- Enterocolitis, endorectal pull-through for Hirschsprung disease in newborn, 372
- Esophageal cancer
- limited resection for early adenocarcinoma in Barrett's esophagus, 733
 - lymph node staging with FDG-PET, 729
 - squamous, improvement in results of esophagectomy, 225
- Esophagectomy, in advanced squamous esophageal carcinoma, 225
- Esophagogastric junction
- adenocarcinoma, surgical therapy based on anatomical/topographic classification, 353
 - cancer, lymph node staging with FDG-PET, 729
- Esophagus, short, 630
- Estradiol, effects on cardiovascular and hepatocellular functions after trauma-hemorrhage (male rat), 673

F

- Factor Accumulation Index, prediction of outcome in unruptured middle cerebral artery aneurysm, 570
- Familial adenomatous polyposis, stapled ileal pouch anal anastomosis without ileal diversion, 530
- FDG-PET. *See* ¹⁸Fluorodeoxyglucose-positron emission tomography
- Fecal incontinence, sacral nerve stimulation for, 143
- Fistula, pancreatic, after pancreaticoduodenectomy, octreotide prophylaxis and, 419
- ¹⁸Fluorodeoxyglucose-positron emission tomography (FDG-PET), lymph node staging in cancer of esophagus and gastroesophageal junction, 729

G

- Gallbladder, motility, effect of endotoxin (opossum), 202
- Gallbladder carcinoma, impact of prior noncurative intervention on outcome, 557
- Gastrectomy, vitamin B₁₂ deficiency, enteral B₁₂ supplementation, 199
- Gastric cancer
- lymphadenectomy in (*letter*), 720
 - lymph node staging, location vs. number, 362
- Gastroesophageal junction, cancer, lymph node staging with FDG-PET, 729
- Gastroesophageal reflux disease, short esophagus, 630
- Gastrointestinal tract
- role of *Pseudomonas aeruginosa* PA-I lectin/adhesin in gut-derived sepsis (mice), 480
 - role of *Pseudomonas aeruginosa* PA-I lectin in gut-derived sepsis (mice), 133

- small bowel epithelial turnover in IL-1 receptor knockout mice, 42
- Gender
- donor-recipient gender mismatching, survival after cardiac transplantation, 302
 - long-term survival after liver transplantation, 490
- Gene therapy, isolated limb perfusion technique for local gene delivery (rat), 814
- Genetics, gene expression patterns in colon cancer, 576

H

- Head injury, minimal, negative predictive value of cranial CT scan, 126
- Hemodynamic instability, in brain death, donor liver quality (rat), 804
- Hepatectomy. *See also* Liver resection
- hepatocellular carcinoma in injured liver, impact of preoperative portal vein embolization, 665
 - laparoscopic, for solid liver tumors, 641
 - two-stage, colorectal metastases, 777
- Hepatocellular carcinoma
- in cirrhosis, radiofrequency ablation for, 381
 - in injured liver, impact of portal vein embolization on outcome of liver resection, 665
 - major right hepatic resection, anterior approach, 25
 - postoperative recurrence, 10
- Hepatocyte(s), entrapment in colorectal hepatic metastases, 653
- Hernia
- abdominal wall reconstruction, complex, flap vs. mesh closure, 586
 - paraesophageal, giant, laparoscopic repair, 608
 - Richter's hernia and Sir Frederick Treves, 710
- Hilar cholangiocarcinoma, management, American vs. Japanese experience, 166
- Hirschsprung disease, endorectal pull-through for Hirschsprung disease in newborn, 372
- Historical perspective, Richter's hernia and Sir Frederick Treves, 710
- 5-Hydroxyindoleacetic acid, urinary, gastrointestinal carcinoids, 549
- Hypotensive hemostasis, in ruptured aortoiliac aneurysm management, 466

I

- Ileal pouch anal anastomosis, stapled ileal pouch anal anastomosis without ileal diversion, 530
- Infant, newborn
- endorectal pull-through for Hirschsprung disease in, 372
 - tetralogy of Fallot, complete repair, 508
- Interleukin-1, small bowel epithelial turnover in IL-1 receptor knockout mice, 42
- Intraabdominal infection, intravenous/oral ciprofloxacin plus metronidazole for, 254
- Ischemia-reperfusion
- intestinal, group IIA phospholipase A₂ and lung injury in, 90
 - spinal cord injury, effect of activated protein C (rat), 272
- Ischemic preconditioning, protective effects in hepatic resection, 155
- Editorial*, 163

- Isolated limb perfusion, adenovirus-mediated gene transfer in sarcoma (rat), 814

J

- Jejunal interposition, for early adenocarcinoma in Barrett's esophagus, 733

L

- Laparoscopy
- antireflux surgery, short esophagus, 630
 - colorectal cancer resection, recurrence and survival, 181
 - immune function and (*letter*), 719
 - laparoscopic cholecystectomy, postoperative bile duct strictures, 430
 - laparoscopic donor nephrectomy, impact on live-donor transplantation rate, 392
 - laparoscopic hepatectomy for solid liver tumors, 641
 - laparoscopic liver resection, 753
 - laparoscopic repair of giant paraesophageal hernia, 608
 - laparoscopic roux-en-Y gastric bypass for morbid obesity, 515
- Letters, 149, 719
- Leukocyte function, posthepatectomy, effect of bactericidal/permeability-increasing protein, 208
- Leukocyte infiltration, brain death and donor liver quality (rat), 804
- Liver function
- after trauma-hemorrhage, estradiol administration and (male rat), 673
 - surgical portal decompression for Budd-Chiari syndrome, 340
- Liver injury, treatment and outcome, 324
- Liver resection
- colorectal metastases
 - cost-effectiveness analysis, 763
 - tumor cell dissemination during, 66
 - two-stage hepatectomy, 777
 - hepatocellular carcinoma in injured liver, impact of portal vein embolization, 665
 - laparoscopic, 753
 - leukocyte function, effect of bactericidal/permeability-increasing protein, 208
 - major right hepatic resection for hepatocellular carcinoma, anterior approach, 25
 - protective effects of ischemic preconditioning, 155
 - Editorial*, 163
- Liver transplantation
- brain death and donor liver quality (rat), 804
 - living-donor, impact of technical modifications, 104
 - predictors of survival after in vivo split-liver transplantation, 312
 - surgical anatomy of left lateral segment as applied to living-donor and split-liver transplantation, 658
 - survival, 490
- Liver tumors, solid, laparoscopic approach for, 641
- Lung cancer, non-small-cell, mediastinal lymph node metastases, PCNA activity, 112
- Lung injury, in intestinal ischemia-reperfusion (rat), group IIA phospholipase A₂ in, 90
- Lymphadenectomy
- in gastric cancer (*letter*), 720

- regional, for early adenocarcinoma in Barrett's esophagus, 733
- Lymphatic system, breast, periareolar blue intradermal dye method, 81
- Lymph nodes
 - lymph node staging in gastric cancer, 362
 - lymph node staging with FDG-PET in cancer of esophagus and gastroesophageal junction, 743

M

- Meralgia paresthetica, 281
- Metastatic disease
 - breast cancer surgery without axillary dissection, 1
 - colorectal cancer
 - gene expression patterns and, 576
 - laparoscopic vs. conventional resection, 181
 - gastrointestinal carcinoids, 549
 - hepatic
 - prognostic significance of hepatocyte entrapment in, 653
 - tumor cell dissemination during hepatic resection, 66
 - two-stage hepatectomy for, 777
- Metronidazole, intravenous/oral ciprofloxacin plus metronidazole for intraabdominal infection, 254
- Models/modeling, model for pediatric surgeon workforce analysis, 442
- Morbidity and mortality
 - breast cancer surgery without axillary dissection, 1
 - cardiovascular and hepatocellular functions after trauma-hemorrhage, estradiol administration and (male rat), 673
 - carotid endarterectomy
 - impact of race, 704
 - patch closure vs. eversion, 119
 - colorectal cancer, laparoscopic vs. conventional resection, 181
 - endorectal pull-through for Hirschsprung disease in newborn, 372
 - endoscopic retroperitoneal adrenalectomy, 796
 - endpoints of resuscitation of critically injured, 409
 - 48-hour postoperative stay for colectomy, 51
 - gallbladder carcinoma, impact of prior noncurative intervention on outcome, 557
 - laparoscopic repair of giant paraesophageal hernia, 608
 - laparoscopic roux-en-Y gastric bypass for morbid obesity, 515
 - pancreas transplantation, portal venous-enteric exocrine drainage for, 688
 - pancreaticoduodenectomy
 - octreotide prophylaxis and, 419
 - risk factors and impact of hospital volume, 786
 - percutaneous dilatational tracheostomy, 233
 - simultaneous cadaver-donor pancreas and living-donor kidney transplantation in diabetic uremic patient, 696
 - stapled ileal pouch anal anastomosis without ileal diversion, 530
 - surgical clipping of unruptured middle cerebral artery aneurysm, 570
 - tetralogy of Fallot, complete repair in newborn, 508

N

- Nephrectomy, laparoscopic donor nephrectomy, impact on live-donor transplantation rate, 392
- Neutrophil activation, ischemia-reperfusion injury of spinal cord, effect of activated protein C (rat), 272

O

- Obesity, laparoscopic roux-en-Y gastric bypass for morbid obesity, 515
- Octreotide, prophylactic, complications after pancreaticoduodenectomy, 419
- Outcome
 - carotid endarterectomy
 - impact of race, 704
 - patch closure vs. eversion, 119
 - endorectal pull-through for Hirschsprung disease in newborn, 372
 - hepatic trauma, 324
 - minimally invasive parathyroid exploration, 331
 - postoperative bile duct strictures, 430
 - surgeon as a prognostic factor, 729
 - unruptured middle cerebral artery aneurysm, 570

P

- Pancreas transplantation
 - portal venous-enteric exocrine drainage for, 688
 - simultaneous cadaver-donor pancreas and living-donor kidney transplantation in diabetic uremic patient, 696
- Pancreatic cancer
 - adjuvant chemoradiotherapy (*letter*), 727
 - TGF β signaling in, 73
- Pancreatic necrosis
 - to debride or not to debride (*Editorial*), 627
 - infected
 - conservative vs. surgical treatment, 619
 - percutaneous necrosectomy and sinus tract endoscopy in, 175
- Pancreaticoduodenectomy
 - complications, octreotide prophylaxis and, 419
 - morbidity and mortality, risk factors and impact of hospital volume, 786
- Pancreatitis
 - acute, serum levels of *reg I* and *reg III* protein (rat), 646
 - acute necrotizing, conservative vs. surgical treatment, 619
 - pancreatic necrosis. *See* Pancreatic necrosis
- Parathyroidectomy, minimally invasive, 331
- PCNA. *See* Proliferating cell nuclear antigen
- Pediatric surgeon, model for pediatric surgeon workforce analysis, 442
- Percutaneous dilatational tracheostomy, complications, 233
- Percutaneous necrosectomy, for infected pancreatic necrosis, 175
- Perforation, duodenal, endoscopic retrograde cholangiopancreatography-related, 191
- Periareolar blue intradermal dye method, functional lymphatic anatomy of breast, 81
- Phospholipase A₂, group IIA phospholipase A₂ and lung injury in intestinal ischemia-reperfusion (rat), 90
- Portal hypertension, β -blockers vs. transendoscopic sclerotherapy vs. surgery, 216
- Portal vein embolization, impact on outcome of liver resection for hepatocellular carcinoma in injured liver, 665
- Pouchitis, stapled ileal pouch anal anastomosis without ileal diversion, 530
- Presidential address
 - centennial changes in surgical care and research, 287
 - surgeon as a prognostic factor, 729

Proliferating cell nuclear antigen (PCNA), in N2 non-small-cell lung carcinomas and their mediastinal lymph node metastases, 112

Protein, skeletal muscle protein catabolism in severe burn, 455

Protein C, activated protein C and ischemia-reperfusion-induced spinal cord injury (rat), 272

Pseudomonas aeruginosa

role of *Pseudomonas aeruginosa* PA-I lectin/adhesin in gut-derived sepsis (mice), 480

role of *Pseudomonas aeruginosa* PA-I lectin in gut-derived sepsis (mice), 133

Q

Quality of life

health-related quality of life after solid organ transplantation, 597

surgical portal decompression for Budd-Chiari syndrome, 340

R

Race, carotid endarterectomy outcome and, 704

Radiofrequency ablation, in cirrhosis and hepatocellular carcinoma, 381

Reg proteins, serum levels, in acute pancreatitis (rat), 646

Renal transplantation

chronic allograft failure, risk factors, 98

donation rate with laparoscopic donor nephrectomy, 392

donor brain death and accelerated allograft rejection, 254263

simultaneous cadaver-donor pancreas and living-donor kidney transplantation in diabetic uremic patient, 696

Research

centennial changes in surgical care and research, 2287

judging surgical research, how to evaluate performance and measure value, 32

Respiratory failure, postoperative, risk index, 242

Resuscitation, optimization for survival in critically injured, 409

Reverse transcriptase-polymerase chain reaction

circulating cancer cells in blood during colorectal cancer resection, 58

circulating cancer cells in blood during liver resection for metastatic colorectal cancer, 66

Richter's hernia, 710

Risk index, prediction of postoperative respiratory failure, 242

Roux-en-Y gastric bypass, laparoscopic, for morbid obesity, 515

Roux-en-Y hepaticojejunostomy, for postoperative bile duct strictures, 430

S

Sacral nerve stimulation, for fecal incontinence, 143

Sarcoma, isolated limb perfusion technique for local gene delivery (rat), 814

Sclerotherapy, for variceal hemorrhage, 216

Sentinel node biopsy, breast cancer, periareolar blue intradermal dye method, 81

Sepsis

role of *Pseudomonas aeruginosa* PA-I lectin/adhesin in gut-derived sepsis (mice), 480

role of *Pseudomonas aeruginosa* PA-I lectin in gut-derived sepsis (mice), 133

Serotonin, gastrointestinal carcinoids, 549

Short esophagus, 630

Skeletal muscle, protein catabolism in severe burn, 455

Smad genes, in pancreatic cancer, 73

Spinal cord, ischemia-reperfusion injury, effect of activated protein C (rat), 272

Staging

colorectal neoplasms, colonoscopic miniprobe ultrasonography, 46

lymph node staging in gastric cancer, location vs. number, 362

lymph node staging with FDG-PET in cancer of esophagus and gastroesophageal junction, 743

Stricture, postoperative bile duct strictures, 430

Strictureplasty, side-to-side isoperistaltic strictureplasty in Crohn's disease, 401

Stroke, carotid endarterectomy

in-hospital, impact of race, 704

patch closure vs. eversion, 119

Surgery/surgical technique

abdominal wall reconstruction, complex, flap vs. mesh closure, 586

anterior approach for major right hepatic resection for hepatocellular carcinoma, 25

centennial changes in surgical care and research, 287

endorectal pull-through for Hirschsprung disease in newborn, 372

endoscopic retroperitoneal adrenalectomy, 796

laparoscopic approach for solid liver tumors, 641

laparoscopic liver resection, 753

limited resection for early adenocarcinoma in Barrett's esophagus, 733

percutaneous necrosectomy and sinus tract endoscopy in infected pancreatic necrosis, 175

portal decompression in Budd-Chiari syndrome, 340

relation of surgical volume to outcome (*letter*), 724

side-to-side isoperistaltic strictureplasty in Crohn's disease, 401

technique for simultaneous procurement of intestinal, pancreatic, and hepatic grafts from the same donor, 680

time to excision and skeletal muscle protein catabolism in severe burn, 455

Survival

after cardiac transplantation, risk factors, 302

colorectal cancer, laparoscopic vs. conventional resection, 181

colorectal hepatic metastases

hepatocyte entrapment in, 653

two-stage hepatectomy, 777

esophagectomy in advanced squamous esophageal carcinoma, 225

gallbladder carcinoma, impact of prior noncurative intervention, 557

gastric cancer, lymph node staging and, 362

gastrointestinal carcinoids, 549

hepatocellular carcinoma

anterior approach for major right hepatic resection, 25

in injured liver, impact of portal vein embolization before liver resection, 665

hilar cholangiocarcinoma, American vs. Japanese experience, 166

liver transplantation

long-term survival after, 490

predictors of survival after in vivo split liver transplantation, 312

in N2 non-small-cell lung carcinomas, PCNA expression and, 112
pancreas transplantation, portal venous-enteric exocrine drainage for, 688
severe trauma, endpoints of resuscitation, 409
surgical portal decompression for Budd-Chiari syndrome, 340

T

Tetralogy of Fallot, complete repair in newborn, 508
Tracheal stenosis, after percutaneous dilatational tracheostomy, 233
Tracheostomy, percutaneous dilatational, tracheal stenosis and other late complications, 233
Transarterial chemoembolization, recurrent hepatocellular carcinoma, 10
Transforming growth factor beta (TGF β), in pancreatic cancer, 73
Transplantation. *See also specific organs*
health-related quality of life after, 597
simultaneous cadaver-donor pancreas and living-donor kidney transplantation in diabetic uremic patient, 696
technique for simultaneous procurement of intestinal, pancreatic, and hepatic grafts from the same donor, 680
Trauma
centennial changes in surgical care and research 2287
endpoints of resuscitation, 409

hepatic, treatment and outcome, 324
measurement of trauma center care (*letter*), 723

U

Ulcerative colitis, stapled ileal pouch anal anastomosis without ileal diversion, 530
Ultrasonography
colonoscopic miniprobe ultrasonography for preoperative staging of colorectal neoplasms, 46
laparoscopic, colorectal hepatic metastases (*letter*), 721
Uremia, diabetic, simultaneous cadaver-donor pancreas and living-donor kidney transplantation, 696

V

Variceal hemorrhage, β -blockers vs. transendoscopic sclerotherapy vs. surgery, 216
Vascular surgery, *letter*, 149
Vitamin B₁₂ deficiency, postgastrectomy, enteral B₁₂ supplementation, 199
Voice changes, after percutaneous dilatational tracheostomy, 233

W

Workforce analysis, model for pediatric surgeon workforce analysis, 442
